LITTLE CHILDREN.

Thank God for little children—  
When our skies are cold and grey,  
They sleep as soundly in our hearts,  
And charm our cares away.

I almost think the angles,  
Who tend life's garden fair,  
Drop down the sweet, wild blossoms  
That bloom around us here.

It seems a breath of heaven,  
Round many a cradle lies,  
And every little baby  
Brings a blessing from the skies.

Rearing Trout.

Any one with a spring of good soft water at command can secure the hatching of brook trout upon his breakfast-table every morning for six months in the year. We heard of a Massachusetts fisherman who, this season, besides supplying his own table with those delicious fish, sold them hundreds of pounds of fish at fifty cents a pound. His pond was half stocked only two years ago at an expense of \$400, dollars and covers about eight acres of land, and he fully expects to triple the production at season. Now, independent of the pleasure derived from rearing the fish and the luxury of eating them, and taking a mere practical dollars and cents view of the case, we can not conceive how an eighth of an acre of land can be made to yield as much clear profit under any species of cultivation.

Colon Robison, who is known to all agricultural readers as a practical man whose opinions are worth something, has been among the big breeders of New England this summer, and says that the only difficulty he can see in the way of pisciculture becoming a profitable branch of rural economy is the difficulty for providing for the fish a sufficient quantity of animal food. We fancy the animal food from his household would go a long way toward furnishing a supply. Let the viscera of poultry and animals slaughtered for the table and for market be passed through an ordinary sausage grinder or cutter, and they will furnish ample food for many more trout than would suffice the home demand.—*Turf, Field and Farm.*

An Ohio Innocent.

We copy the following from the *Cincinnati Commercial*:

While the trial of the ejectment suit of Taylor's heirs vs. Hornbeck and others, was progressing in Newport, Kentucky, a singular transaction was disclosed by the evidence, which evinced not a little surprise and interest. The people who have been members of Congress who have the daring to propose such a measure as this, have no better guarantee against such a catastrophe than the universal caution which now prevails. The sentiment of the country is essentially conservative. An expansion of the currency would be so unpopular to the people at large that there are few members of Congress who have the daring to propose such a measure as this, have no better guarantee against such a catastrophe than the universal caution which now prevails.
